## A Research & Reference Tool

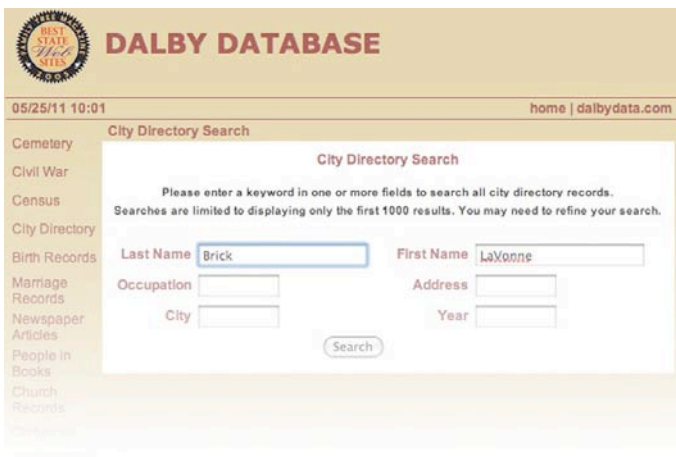

John & Jan Dalby  
Email: johndalby@charter.net

The Dalby Database is a decades-long project of Faribault natives John and Jan Dalby. This database includes cemetery records from Rice County and other selected counties in southern Minnesota, indexing of history books, plats, newspaper articles, church records, marriages, birth, Civil War veterans, and city directories of Rice County. New data is entered and updated daily. The database is available free of charge at [www.dalbydata.com](http://www.dalbydata.com).

## Using [www.dalbydata.com](http://www.dalbydata.com)

Using this website is fairly simple. See "Search Tips" on the bottom left list of links for assistance. Other search fields include Cemetery, Civil War, Census, City Directory, Birth Records, Marriage Records, Newspaper Articles, People in Books, Church Records, and Obituaries. Click on any of these to find straight-forward forms to add your search terms.

## Woolen Mill Employee Records from the Dalby Database

The information below has been downloaded from the Dalby Database and is gleaned from the City Directory and Cemetery sections within the site.

The data below includes employees that lived in Faribault, their start dates and years of employment up to 1975, positions held, and in some cases, birth and death records, and where the person was buried. This data was downloaded in May 15, 2011. Dalby's are continually adding new information, so there may be some updated details to these records on the website entered after May 15.

### The FWM employment records printed from the Dalby Database end after 1975.
